

Understanding the Lewis Stone and the Lewis Curse

1. The firstborn son of a Freemason is known as a Lewis.
2. Another meaning of the Lewis is the apparatus that gets pushed under a heavy stone block to be able to lift it or move it.
3. The stone in the middle of a built arch is also known as the corner stone and the Lewis Stone.

How is this arch built?

When a stone mason builds an arch, he uses supports to keep the stones in place while it is still uncompleted. The chiseled stones get cemented together from both sides working towards the center. As soon as the corner stone is placed in its place, the supports can be removed and the arch stands on its own!

Why the corner stone, as well as the oldest son of a Freemason is called a Lewis.

For many centuries in Persia, they built an archway where the False Messiah (Baal Berith) was placed in the middle of the arch. He was portrayed as a son on a rainbow. The Lewis Stone is placed at exactly the same place.

During the Christian era this false messiah was wrongly associated with the true Messiah Y'shua.

In their search for enlightenment, the Freemasons climb up Jacob's ladder according to the degrees of Freemasonry, until at last they are "enlightened" when they get to the 31 – 33 degrees. It is at this stage that the Kundalini serpent has climbed through the 7 chakras on the spine ... 31-33 vertebrae.

According to the Freemasons, at this stage, they are changed into so-called "gods".

This in turn, causes the eldest son of the Freemason to be a "son of god".

He sits in the middle of the rainbow (which is the symbol of the Covenant that God made with Noah) as the "Messiah".

If this so-called "messiah" does not take up his calling to be a Freemason, he comes automatically under the **Lewis Curse**:

He will never be successful in his life – he will always be struggling with financial problems and will forever be a failure.

PRAISE GOD THAT YESHUA IS OUR MESSIAH!!
